COMMUNICATION and  
RESPONSE TO OFFICE ACTION

Sir:

I have reviewed the Office Action dated December 20, 2000 (Paper No. 20) and the rejections set forth therein. The present Communication is a request that subject application be returned to OIPE for further processing, for reasons outlined below.

On November 9, 2000, a Request for Continuing Prosecution Application (CPA) was filed with the USPTO. The CPA included a check for payment of the fee for the requisite 3-month extension of time. However, payment of the basic filing fee was not included with the filing of the application. Furthermore, a Revocation of General Authorization Under 37 C.F.R. § 1.136(a)(3) was filed concomitant with the filing of the CPA, stating that the (Assistant) "Commissioner is no longer authorized to charge any fees which may be required under 37

Appln. No. 09/043,813

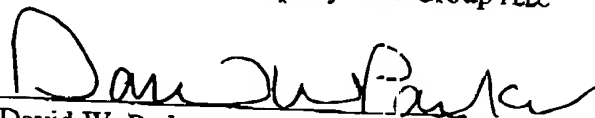

C.F.R. § 1.16 and 1.17...". In other words, the filing fee for this application has not been paid. A copy of the Revocation is enclosed for your convenience and reference.

Applicants respectfully submit that subject application should be returned to OIPE for further processing, so that the Applicants have an opportunity to pay the filing fee for the application, and place the application into proper form.

As to the double patenting rejection, Applicants respectfully submit that it is premature to address this issue, since the Application should not be examined until the filing fee has been paid. However, Applicants do not agree with the Examiner's position. Nevertheless, Applicants are currently seeking to obtain a Terminal Disclaimer, which should be available in the next few weeks. The Examiner is encouraged to contact the undersigned at (206) 622-4900, should further communication be required to resolve this matter.

Respectfully submitted,
